

Table of Contents

Chapter One

Introduction	1-1
Summary of Findings.....	1-3
Summary of Recommendations.....	1-5

Chapter Two

Inventory of Existing Conditions	2-1
Airport Locale.....	2-1
Climate	2-3
Socioeconomic Conditions	2-4
Airfield Facilities.....	2-10
Landside Facilities	2-23
Navigational Aids and Airspace.....	2-24
Airport Support Facilities/Services.....	2-33
Land Use Patterns and Zoning	2-34
Airport Service Area	2-35

Chapter Three

Aviation Activity Forecasts	3-1
Executive Summary.....	3-1
Aviation Indicators/Influences.....	3-16
Assessment of Local Conditions.....	3-19
Assessment of Existing Forecasts.....	3-19
Updated Forecasts	3-23

Chapter Four

Airport Facility Requirements.....	4-1
1997 Airport Master Plan Overview	4-6
Airport Design Standards.....	4-8
FAR Part 77 Surfaces	4-27
Airside Requirements.....	4-34
Landside Facilities	4-47
Support Facilities.....	4-56
Facility Requirements Summary	4-57

Chapter Five

Airport Development alternatives	5-1
Summary of Preferred Alternative.....	5-2
Preliminary Development Alternatives.....	5-5
Do Nothing/No Action Alternative.....	5-5
Landside Development Alternatives.....	5-8
Landside Development Option 1 – Terminal Area.....	5-9
Landside Development Option 2 – Infield Area.....	5-14
Landside Development Option 3 –Closed Runway Area	5-16

Chapter Six

Land Use Summary6-1
Land Use Jurisdiction6-6
Airport Noise Analysis6-11
Land Use Recommendations6-19

Chapter Seven

Financial and Development Program7-1
Airport Development Schedule and Cost Estimates7-2
Capital Funding Sources7-11

Chapter Eight

Airport Layout Plan Drawings8-1

Appendix A - FAA Design Standards Summary A-1
Appendix B- FAA Airfield Design PrintoutsB-1
Appendix C - FAA INM (Noise Model) Report Documentation.....C-1
Appendix D - 2011 Noise Update..... D-1
Glossary of Aviation Terms 1

List of Tables

Table 2-1: Shelton and Mason County Historic population.....2-4
Table 2-2: Annual Economic Impact Summary for Sanderson Field*2-5
Table 2-3: Employment Estimates and Industry Projections for Mason County and
Washington state, 2000 & 20082-7
Table 2-4: Current Estimates of Activity – Sanderson Field.....2-8
Table 2-5: Airport Data – Sanderson Field2-11
Table 2-6: Comparison of Runway 5/23 Dimensions.....2-13
Table 2-7: Runway Data (5/23) – Sanderson Field.....2-15
Table 2-8: Taxiway Data – Sanderson Field2-16
Table 2-9: Sanderson Field Wind Coverage2-17
Table 2-10: Aircraft Apron Data – Sanderson Field2-18
Table 2-11: Types of Airport Lighting Used at Sanderson Field2-19
Table 2-12: Airport Lighting2-20
Table 2-13: Summary OF Sanderson Field Airfield Pavement Condition.....2-22
Table 2-14: Published Pavement Strength Runway 5/23 – Sanderson Field.....2-23
Table 2-15: Sanderson Field Aviation-Use Buildings.....2-24
Table 2-16: Navigational Aids and Related Items2-25
Table 2-17: Airspace/Instrument Routes/Local Obstructions2-32
Table 2-18: Aviation Fuel Storage2-33
Table 2-19: Public Use Airports in Vicinity2-36
Table 3-1: FAA Long Range Forecast Assumptions3-5
Table 3-2: Historical Population.....3-6

Table 3-3: Comparison of Average Annual Growth Rates Mason County Population and Sanderson Field Based Aircraft	3-6
Table 3-4: Summary of Historical Activity	3-10
Table 3-5: Sanderson Field Based Aircraft	3-11
Table 3-6: FAA Air Traffic Estimates	3-13
Table 3-7: Updated (2007) Air Traffic Estimates	3-15
Table 3-8: Airport Fuel Activity	3-17
Table 3-9: Sanderson Field Based Aircraft & Hangar Utilization	3-19
Table 3-10: 1997/1992 Sanderson field Master Plan Forecasts	3-21
Table 3-11: 2007 WSDOT Aviation LATS Forecasts	3-21
Table 3-12: Comparison of updated based aircraft Forecasts	3-24
Table 3-13: Comparison of updated GA operations Forecasts	3-25
Table 3-14: Summary of Operations by Activity Category	3-29
Table 3-15: Summary of Based Aircraft Fleet Mix	3-30
Table 3-16: Summary of Operations by Aircraft Type	3-30
Table 3-17: Summary of Peak Demand	3-31
Table 3-18: 50-Year Operations Forecast	3-31
Table 4-1: Executive Summary of 2007-2008 Airport Master Plan Preliminary Facility Requirements	4-4
Table 4-2: Summary of 1997 Airport Master Plan Recommended Projects and Current Status	4-7
Table 4-3: Typical Aircraft & Design Categories	4-10
Table 4-4: Airport Design Standards Summary	4-13
Table 4-5: Sanderson Field Current Conformance With FAA Design Standards	4-15
Table 4-6: FAR Part 77 Airspace Surfaces	4-28
Table 4-9: Airplanes That Make Up 75% of The Fleet	4-36
Table 4-10: FAA Recommended Runway Lengths (From FAA Computer Model)	4-36
Table 4-11: Typical Business Aircraft Runway Requirements	4-38
Table 4-12: Summary of Recommended Airfield Pavement Maintenance	4-41
Table 4-13: Apron and Hangar Facility Requirements Summary	4-54
Table 4-14: Facility Requirements Summary	4-58
Table 5-1: Comparison of Planning Level Cost Elements	5-18
Table 6-1: Summary of Airport Land Use Controls	6-3
Table 7-1: 20-Year Capital Improvement Program	7-7
Table A-1: Sanderson Field Summary of Non Conforming Items (FAA Standards)	A-1
Table A-2: Sanderson Field Summary of Conformance with FAA Standards	A-7
